Experience

Forex Trader

GRS Firm

2021-2024

- Implemented Smart Money Concepts (SMC) to identify high-probability trading opportunities, resulting in a 85% increase in profitability.
- Developed and executed structure-based trading plans, systematically mapping support and resistance levels, trend lines, and key price zones.
- Applied wave analysis techniques, including Elliott Wave Theory, to predict market movements and execute precise trades.
- Managed a diverse portfolio of assets, conducting thorough technical and fundamental analysis to inform trading decisions.
- Maintained a disciplined trading routine and proactive risk management approach, achieving consistent returns and exceptional client satisfaction.
- Collaborated with team members to refine trading strategies and share market insights.

Crypto Trader

ETA Firm

2017-2020

- Conducted in-depth market analysis using Smart Money Concepts to identify institutional trading activities and market manipulations.
- Utilized structure-based trading methodologies to develop systematic trading strategies aligned with market conditions.
- Performed wave analysis to anticipate market trends and price patterns, optimizing entry and exit points for trades.
- Executed trades across various financial instruments, ensuring adherence to risk management protocols.
- Contributed to the development and enhancement of trading models and tools to improve trading performance.
